In my opinion the above applicant is an excellent risk. He was refused by the equitator on account of a misunderstanding with the medical examiner at that time. He answered in the affirmative the question as to fainting - and pain in the heart. In no case was he right. He is not subject to indigestion never fainted but once in his life, and that was in a crowded overheated room. on an empty stomach and during the recital of the details of a revolting crime.
